## SASKATOON.

The first train crossed the river here  
over the new bridge last week, and some  
distance of track is laid on the west  
side.

Dr. J. H. C. Willoughby, of Regina,  
is attending to Dr. Swat's patients in  
the railway camps during the latter's ab-  
sence at his home in Minneapolis.

Work has commenced on the station  
building and round house on the west or  
opposite side of the river from the present  
town.

Those who improved their properties  
in the village in anticipation of a boom  
feel considerably disgusted over the re-  
velation of the new site, while those who  
live on the opposite side are easily recog-  
nized by the broad grin which illumi-  
nates their features when the question  
of town site is discussed.

Tenders are invited for conveyance of  
mails via Saskatoon to Clark's Crossing,  
Alvena, Batoche and Duck Lake.

A little boy of Mr. Molloy's at the  
Crossing found a pocket book the other  
day containing money and cheques to the  
value of over \$100. The owner, a Mr.  
Cook, manifested his gratitude for the  
recovery of his property by the magnifi-  
cent offer of fifty cents to the child.

ing for fire appliances, and from D. J.

FRIDAY, JUNE 27, 1890.

For the information of the editor of the  
Saskatchewan, as well as its readers, we  
consider it our duty to correct his some-  
what antiquated knowledge of the inde-  
pendent kingdom of Roumania. Our  
learned doctor seems to be unaware that  
people of Europe have their wars as well  
as we our rebellions. In 1877 '78 the  
Russians, with Roumanians, Servians and  
Montenegros, fought the Turks and de-  
feated them, and Roumania, Servia and  
Montenegro were declared independent  
at the Berlin Treaty and Roumania made  
an independent kingdom. Its population  
numbers 6,000,000 souls, belonging to  
the Greek and Roman Catholic Churches.

The patent inside special emigration  
edition of the *Saskatchewan* has been dis-  
tributed: some weeks ago we gave an  
historical sketch of the settlement; next  
week the district pamphlet will be issued,  
our immigration committee are hard at  
work with Dr. Klemm introducing the  
advantages our district offers for settle-  
ment; Messrs. Campbell and Millar are  
now in Ontario drawing public attention  
to the central point of the fertile belt;  
and the July number of the *Western  
World* will devote two of its pages to  
wards drawing attention to this quarter.  
Strange, indeed, would it be, if this com-  
bined effort does not lead to the active  
location of settlers within the district  
during the next twelve months.

The members of the fire company are  
hard at work collecting money for the  
coming 1st July celebration, and every-  
thing points to a successful days sport.  
Already something like \$200 has been  
paid in, and the collectors hope to bring  
the amount up to \$250 before they quit.  
The public have made a fair response to  
the firemen's call and we are satisfied the  
company will make next Tuesday boom  
with enjoyment.

In its last issue the *Saskatchewan* ad-  
vertises for a man to write squibs. It  
must be difficult to please a joint stock  
company. Our impression is that in this  
particular line the present manager of  
that paper has proven himself eminently  
successful; in fact squibs seem to be his  
forte; but then tastes differ, you know.

The following very complimentary no-  
tice, relating to one of Prince Albert's  
well known and respected citizens, is  
taken from the report of proceedings of  
the Royal Institute, and published in the  
*Dominion Illustrated*:—"Mr. Chas. Mair,  
author of *Tecumseh*, and whom we are  
pleased to number among our contribu-  
tors, read an interesting paper on 'the  
American Bison, its habits, the methods  
of capturing it, and its economic use in  
the Northwest, with deference to its  
threatened extinction and its possible  
preservation.' Mr. Mair's poem on 'the  
Last Bison,' in our first volume, was one  
of the finest poems that we have had the  
pleasure of publishing.

DR. KLEMM'S VISIT.

We have had the pleasure of meeting  
Dr. Klemm, the Roumanian delegate, and  
find him a strong believer in the methods  
of farming adopted in his country as well  
as being thoroughly imbued with the  
object of his present visit, "the estab-  
lishing of a Roumanian Colony in Mani-  
toba or the Western Territories."

He left Roumania March 8th, and this  
is his first visit to Canada. During the  
short time he has been in the country he  
has seen much that denotes the rapid  
strides it is making. Before starting for  
Manitoba he visited Quebec, Montreal,  
Ottawa and some few smaller places in  
the east; spending most of his time driv-  
ing through the country about the cities.  
Near Montreal he visited the home of a  
Roumanian farmer, who gave strong evi-  
dence of his success since coming to  
Canada. At Ottawa a very enjoyable  
time was spent; he saw most of the min-  
isters and received every attention from  
Hon. Mr. Carling, Minister of Agricul-  
ture, through whose kindness a visit to the  
Central Experimental Farm was arranged.  
There he saw enough to satisfy him as to  
the ability of Prof. Saunders, and the  
wonderful agricultural possibilities of the  
Dominion, but he believes a Dominion  
agricultural college on a large scale should  
be established in every Province. At  
several places on his way west he was  
prevailed upon to stop over and make  
examinations, and in nearly every case  
he found that false representations had  
been made to him. These and some tre-  
mendous banks of snow, on the way up,  
caused him to fully appreciate the beau-  
ties of Port Arthur. While he admired  
much of the beauties of Port Arthur, his  
first sight of Winnipeg convinced him  
that still greater attractions were in store  
for him. He was fortunate in having  
valuable letters from England to Winni-  
peg gentlemen who arranged prospecting  
trips for him throughout the Province.  
At Langenburg, a German colony demon-  
strated that where foreign people made  
any great effort they were certain to  
succeed and were satisfied with their  
position. Saltcoats, Yorkton, Goose  
Lake, Devil's Lake, White Sand River,  
Wallace, Hun's Valley, as well as several  
other points were examined. At the  
latter place he saw three or four of his  
countrymen, all farming and doing well.  
An extended examination of the country  
about Portage la Prairie satisfied him  
that cultivation could yet do much for  
that favored section of Manitoba. While  
there Judge Ryan called his attention to  
the importance of Prince Albert and the  
large sections of valuable land by which  
it was surrounded. This induced him  
to make further enquiries from Mr. Nan-  
ton, from whom he received much valu-  
able information and offers of passes over  
the railroad to Saskatoon. Mayor  
Knowles then turned up and induced  
him to make the visit we are now enjoy-  
ing. This necessitated an extensive  
alteration of plans; but the doctor is  
satisfied at having done so, and believes  
the result, apart from his colony business  
altogether, will prove of great advantage  
to our future. Taken altogether, he is  
agreedly disappointed with Manitoba  
and the Territories. In Roumania they  
are generally spoken of as the Siberia of  
America. Instead of this the doctor says  
"I find a well developed country enjoy-  
ing a healthy climate, and a soil capable  
of producing an almost unlimited food  
supply, and had I have known this I  
would have made this visit a year ago."

Either the doctor or his able secretary  
will return to Roumania at once and ar-  
range for the outcoming of from one  
hundred to three hundred families, who  
will start as quickly as possible, and  
their location will be decided upon in a  
few days. Dr. Klemm declined giving  
an opinion on the merits of this  
particular district, but as soon as he has  
finished travelling through it, he will  
communicate his intentions to the emi-  
gration committee. He does not hesitate,  
however, to state that he did not expect  
to find commodious brick dwelling houses,  
schools and colleges so far from the line  
of railroad. Since reaching Manitoba he  
has received many letters from his coun-  
trymen in the United States asking him  
to secure homes for them. He will write  
to them at once that the Territories are  
large enough and good enough for the  
whole of them. The doctor expects to  
start on his return trip to-morrow.

DUCK LAKE.

Owing to the railway not reaching here  
until the 15th July, it has been decided  
to put off the sports until that date, and  
it is the intention of the committee to  
arrange an excursion from Saskatoon,

Clark's Crossing and Fish Creek to this  
point. A much larger programme will be  
given than last year, and includes horse  
and foot races, chariot and boat races and  
tug-of-war, to conclude with the cele-  
brated Prof. Drain's one-wheeled race. In  
the evening a grand concert and sleight-  
of-hand and ventriloquist entertainment  
will be given.

Const. Hoyt, of the Police detachment  
here, had one of his legs fractured this  
week, and is now under Dr. Stewart's  
care.

Mr. H. Mitchell lost his valuable polled  
Angus bull this week. As we have no  
vet., it is not known what was the cause.

Contractor Keith has moved his camp  
to Macfarlane station; Mann Bros. will  
move to-day to the Pines; Madigan to  
morrow to nine miles this side of Prince  
Albert; and Capt. Ross to Prince Albert  
on Wednesday next. Grading is now  
finished to the Pines.

Indian Department clerk returned from  
the east last week, and is again hard at  
work.

The lawn tennis club are practising  
very hard, and it is said they will  
challenge your town shortly for a series  
of games.

Messrs. W. Gerrond and J. Dallas are  
doing a rushing business here.

Corp. Oliver and two men are stationed  
permanently here.

No decision has yet been reached as to  
our town site. Something should be  
done at once, as many people are anxious  
to get buildings up.

Weather clear and very hot.

## SCRIP QUESTION.

Extract of a letter of Rev. Pere Lestage, (St. Albert), to the director of Le Manitoba.

In the report of the Department of the Interior, published in Ottawa, March the 3rd, 1890, I read a report of the inspection of Mr. Burgess, Deputy Minister of the Interior, in the Northwest. This report contains statements which are not very correct. If Mr. Burgess had not been in to great a hurry; if he had taken the time to see the merchants and the half-breeds; if, above all, he had not needed an interpreter to talk to the greater part of the people he visited, I believe his report would not have raised any protestation. Instead of saying that the half-breeds are largely indebted to white traders; that they have no adequate conception of the real value of money; that the existing generation, as a rule, would not make satisfactory laborers or domestic servants, he would have made a distinction without which one cannot be either just or truthful in speaking of the half-breeds in this country. If Mr. Burgess had understood us rightly, he would not have inserted in his report, the following statement, page twenty-eight: "Except the Rev. Pere Fourmand, the Roman Catholic priest in charge of the mission at St. Laurent, I found the missionaries of all churches unanimously opposed to this proposition" namely of granting scrip to half-breeds. (Rev. Father Fourmand is the only Catholic priest, at least of the Saskatchewan district, whom Mr. Burgess has consulted; no wonder he was the only one he found in favor of the scrips.)

There is nothing to be wondered at if some half-breeds of St. Albert (and we may add of other places) did not make good use of their scrips. Is this a sufficient reason for depriving a whole nation of a right that has received the approval of the Northwest Assembly? Let us throw some light on the question. In the Northwest there are two classes of half-breeds, the civilized, and the Indian or uncivilized half-breeds, the civilized have never consented to take up the treaty, as those of Qu'Appelle, Batoche, St. Laurent, Battleford, St. Thomas, Dauphin and St. Albert. These half-breeds know very well the value of money, and skillfully perform their own transactions. Before the troubles of 1885, there were at Batoche, and in the neighborhood of St. Laurent, several rich half-breed farmers; this year at St. Albert, notwithstanding the failure of crop for the last three years several half-breeds have sown from 100 to 200 bushels of grain on their farms.

Scrips granted to these half-breeds would be greatly profitable; would give them a new ardor for the progress both material and moral of their families, and would enable them to comply with the exigencies of civilization. As to the Indian or uncivilized half-breeds, who broke up with the treaty, scrips would not relieve them. All who take a true interest in them blame the Government for having granted their scrips indiscriminately. Another treaty should be entered upon with those so called half-breeds, and henceforth they should be dealt with as wards of the Government.

Such is the opinion of the Roman Catholic clergy on the scrip question, and it is also the opinion of our worthy bishop R. R. V. Grandin.

While playing baseball on Monday evening last at Colleton Geo. Neilson batted a foul tip, which struck him on the side of the face, inflicting a very painful wound.

A meeting of the council of the Board of Trade was called for Tuesday afternoon, but owing to a sufficient number of members not putting in an appearance the meeting was adjourned.

Clayton Peterson was unlucky enough to lose a pocket-book containing a large sum of money, on a recent trip to Duck Lake. Fortunately, however, a native woman found and returned it to him intact.

Notices are out asking for tenders for a weekly or semi-weekly mail from Saskatoon via Clark's Crossing, Alvena, Batoche and Duck Lake to Prince Albert. Tenders will be received up to noon of the 28th.

During Wednesday night the river rose about two feet, and during yesterday and to-day large quantities of driftwood, house and saw logs have come down, very little of which was allowed to pass the town.

H. Mann, of the firm of Mann Bros., contractors on the railroad, was in town for a day this week, and like all other visitors to Prince Albert Mr. Mann was surprised at the progressive aspect of the town and country.

The Ladies' Aid Society, of St. Paul's Presbyterian Church, will hold a sale of useful and fancy articles, on July 1st, in the church. The sale commences at 1 o'clock p.m. Refreshments will be served at reasonable prices.

We are pleased to know that the Special Committee for Dominion Day have succeeded in their efforts to procure funds for the games, etc., the people of the town having responded liberally to their appeals for the necessary backing. This is as it should be. We hope to see a large turn out of people from the outlying settlements, on that occasion, as it promises to be the most enjoyable day's outing Prince Albert has yet undertaken.

Holidays for the public schools commence to-morrow.

The league matches set down for to-morrow have been postponed till August 2nd. This is owing to so many of the marksmen being called away to attend the military camps now being held. The next match takes place on July 12th.

The examinations at the Central School took place this week. Very little interest was taken in them by the parents, and still less by the trustees, two of whom put in a first appearance for a few minutes on this occasion. This is not very encouraging to the teachers.

The great sculling race for the championship of the world, and £1,000 a side, was rowed on the Paramatta River, Australia, on the 23rd inst., between W. O'Connor and H. Stansbury, and was won by the latter. Some of our local sports lost heavily on the result.

The entrance examination to the High School began on Wednesday and concluded to-day. There are seventeen candidates writing. The papers were prepared by the Board of Examiners for the Territories and will be forwarded to Regina for examination, so that the result will not be known here till about August. Mr. Stull is presiding examiner.

Mr. F. Steele, of Steele & Wing, photographers, Winnipeg, will visit Prince Albert in about three or four weeks, and remain a short time to take photos. Referring to this artist's ability, the *Moosomin Courier* of April 3rd says: "We visited Mr. Steele's studio yesterday and were much pleased with the large display of finely finished photos of our townspeople. The work bears favorable comparison with what we have seen turned out of some of the best English studios and proves Mr. Steele to be an artist of more than ordinary ability."

The *Graphic*, Chicago's popular illustrated weekly, is publishing a beautiful story of Canadian life, by Mrs. Mary H. Catherwood, author of the famous "Romance of Dollard," the story of "Tonty" and other charming chapters of Canadian history and tradition. The *Graphic* story is entitled "Children of Ha Ha Bay," the scene being laid successively near St. Alexis, Chicoutimi and Tadoussac. Marie, a fair orphan girl; her grandfather, a hermit, at Chicoutimi; Ignace, a brave young forester, and Justine, his sister, are the well drawn characters in this, the best of shorter stories. The three issues containing this beautiful sketch (finely illustrated by Mr. A. B. Davies,) may be obtained of most newsdealers, or they will be mailed by the publishers on receipt of 30 cents.

Messrs. Macdonald, McKay and Betts returned home on Tuesday last. All express themselves as delighted with the unopened territory through which they travelled, north of the river. At Duck Lake they met Dr. Klemm and party, and hopes are entertained that the many advantages for settlement seen by the doctor during the trip will be accepted by the people whom he represents. Samples of soil were taken from nearly every township, and a square of choice land capable of locating over 10,000 families was pointed out and a careful examination of it was made by the doctor. On Wednesday Messrs. Macdonald and McPhail accompanied the doctor on a visit through the Lower Flat settlements. To-day he visits the St. Catharines and Kirkpatrick settlements in company with Messrs. Macdonald and Stewart. To-morrow Mr. McKay will again start out with a view of showing the doctor the territory on the south side of the South Branch; Pashanon, Kinistino, Birch Hills and other desirable points will be inspected.

Follow the crowd and you will find F. C. Baker. He is doing more business than ever.

Mr. Geo. Cassie and son arrived on the stage on Saturday night. Mr. Cassie came to Prince Albert first in 1883 and stayed for a couple of years, then returned to Fordwich, Ont. He intends remaining here now and go into contracting as a mason and plasterer. He intends bringing his family out here in the fall.

The Government intend converting their line from Saskatoon to this point into a telephone service, the operators to be paid by commission. The change will come into effect on the 1st of September next. This will throw their present staff at Batoche, Duck Lake, St. Laurent and Prince Albert out of employment.

At a meeting of the S.P.R. Association held on Wednesday evening last, it was decided that rifle practices commence on Saturday afternoon next and every Wednesday and Saturday afternoons until the annual meeting which takes place about the first week in August. Members are to meet at the ferry at one o'clock p.m. sharp to get the benefit of reduced rates.
